## ABOUT THE AIA UK

The American Institute of Architects has been shaping the US architectural industry since its founding in 1857. Over the past 20 years, it has been actively developing and growing an international influence, and the AIA UK Chapter has been at the forefront of this expansion of North American practice. AIA UK would like your support in order to continue to provide the quality social, technical and educational events hosted by our chapter every year, that further the development of UK's architectural community.

The architecture profession is a global network, with the UK and London as essential hubs that bridge practices in Europe, the Middle East and North America. The AIA UK Chapter boasts over 200 members, from multiple sole practitioners and consultants, to some of the largest firms in the world, including Fosters and Partners, Gensler, Grimshaw, HOK, RTKL, Rogers Stirk Harbour, SOM and KPF.

Most of our members are based in London, which allows them to come together for the more than thirty events hosted by the Chapter every year. As a volunteer organisation, we rely on our members' time and energy to organise and host these events, and we need your help as a sponsor.

We are looking for multiple sponsors for our premier annual programmes, such as our Summer Gala, Design Awards and Keynote Lecture Series, but we also need solo sponsors for our smaller events, such as our building tours, film nights and technical lectures. This is a unique opportunity to gain exposure with architects working on a wide range of projects all over the world.

We thank you for your support, and our members look forward to seeing you at our next event.

### PREMIER EVENTS

DESIGN AWARDS
